

# AlphaCard ID Suite Light Edition

Easily design, print, and manage ID cards & badges

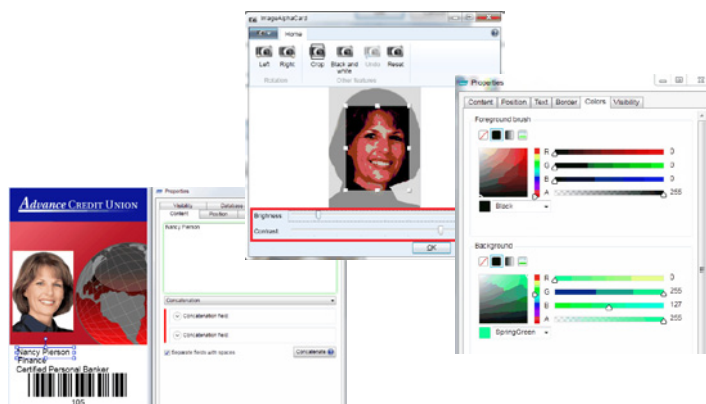

## Powerful ID Card Software

As the premier solution for ID card production and data management, AlphaCard ID Suite combines user-friendly design and automation tools with a sophisticated platform for storing and organizing records for any professional application.

New with AlphaCard ID Suite v11, the software now includes an enhanced card design wizard, high resolution barcodes, and improved language translations.

## Light Edition Features

AlphaCard ID Suite Light edition is the perfect solution for small organizations looking to print one-off cards or small batches. Light edition features a built-in 200-record database to store cardholder information and easy-to-use card templates.

**SYSTEM REQUIREMENTS:** 32 or 64 bit Microsoft Windows operating system (Windows 7, 8, 10), Explorer 6 or higher, Microsoft .NET framework 4.0 or higher, dual-core processor, 1 GB internal memory (32 bit) or 2 GB internal memory (64 bit), 200 MB free disk space, internet connection.

## Highlights

- Customizable record screen layout
- Design & print paper or plastic ID cards and labels
- Include text, images & graphics in card design
- New font weight options
- Design & encode 1D barcodes
- Single or dual-sided printing
- Digital ID camera support
